

May 20, 1975

CLERK: Yes.

SENATOR LEWIS: I would so move, then.

PRESIDENT: Senator Duis.

SENATOR DUIS: Mr. President, members of the Legislature, I think probably there is one thing that you should know about this particular program and that is the gentleman that heads this program is Dr. John Finnigan. Dr. John Finnigan is a family practitioner and came from Lexington, Nebraska. He is a Nebraskan and he has the family practice at heart. So, I would certainly give every consideration to this legislative bill because I believe you have a man in charge of the program now who will see to it that it works.

PRESIDENT: Senator Kelly.

SENATOR KELLY: Members of the Legislature, I hasten to support the Lewis amendment. It's again been forged in the fire of compromise. The Medical Center, this amendment is acceptable to them and allows them to do what they have programed. We who are outstate desiring this family practice with a whole heart believe that this amendment will cement relationships between the Medical Center and outstate Nebraska and no further comment, we've finally gotten there with 571. Let's accept the Lewis amendment.

PRESIDENT: Senator Barnett.

SENATOR BARNETT: Well, Mr. President, members of the Legislature, I'm going to make a plea again. We're ignoring the Speaker, we're ignoring the lists. I'd like to have Senator Burbach stand up and tell me why we don't stay with the list that he has put out. These bills that are on Final Reading can take it up after we get done with Select File and E & R, because they are in a position where it won't hurt them and we can take them up after we stay with the list that you have put out and we have given you that responsibility to do. Now, you tell me why we can't stay with that list and get the Select File out of the way.

SENATOR BURBACH: Well, I'll tell you Senator Barnett, I have put on your desk a corrected copy because I pulled out of there bills which had been discussed. They had come before starting with 522, 383. This has always been a procedure to move those bills when there is a request that they be brought back so they can be ready so that hopefully they get over there and stay there and proceed from there. I think it's very important that we do take those bills, and these are the ones I could not build into a calendar because there's a 577, 571, 571A, 203, 410, 472, 279, and 216. These are requests by this body to have discussed, they lay the motions on the desk and we always take time in the morning to move this over so when they have to go back to E & R, it takes a certain amount of time to process them. And otherwise, we will take the other bills, I forget the ones that
